AICMT International Private Limited is more than just manufacturers for Compostable plastic; we are committed guardians of our planet Earth. Founded by alumni of IIT Kharagpur, AICMT's concept is simple. What we take from nature should go back to nature – that's our concept, motto, and inspiration: "From Nature, to Nature".

**CODE: ABP-FMB**

### Compostable Filler Master Batch

**Properties:** Excellent Mechanical Properties  
High Strength  
Easy to Process  
Very good sealing Properties  
Cost Competitive

**Applications:** Blow Films, Carry Bags, Shopping Bags, Roll on Bags  
Grocery Bags, Garbage Bags.

### Compostable Natural Filler Master Batch (Transparent)

**Properties:** Easy to Process  
Good Transparency  
Excellent sealing Properties  
Cost Competitive

**Applications:** Blow Films, Super Market Pouches, Garment Bags  
Transparent Bags

**CODE: ABP-NFMB**

**CODE: ABP-COM1**

### Compostable Pre-Mix Granuels

**Properties:** Low Density Bags  
Easy to Process  
Cost Effective  
Excellent sealing Properties  
Higher Strength

**Applications:** Blow Films, Carry Bags, Shopping Bags, Roll on Bags  
Grocery Bags, Garbage Bags.

- Manufactures of Compostable Granules (Raw Materials)
- Customized bags with Private Labeling is our Speciality
- In House Multi Color Printing Facility

**Shopping Bags  
&  
Pharmacy Bags**

**Super Market Pouches  
&  
Grocery Bags**

**Garment Bags  
&  
D-Cut Bags**

**Garbage Bags**

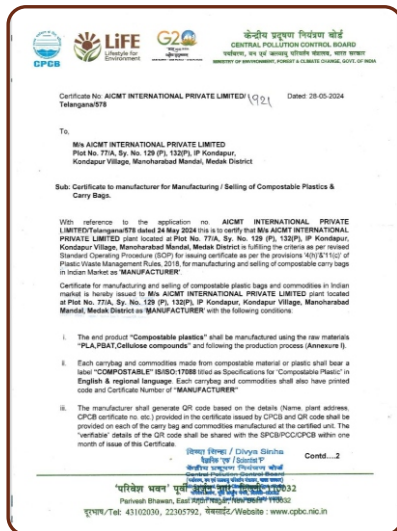

**\* All Kinds of Customisation will be available  
for Your Compostable Bags requirements**

## Why do Customers Choose Us?

- All are compostable Products are made from Bio-degradable Polymers like PBAT, PLA and Organic Material like Corn starch.
- In House Raw Material Compounding facility assuring Genuinity of Products.
- Extensive Product Knowledge & wide range of Superior quality Compostable Products.
- Our products are free from BPA, Non Toxic and are Completely safe for Eco System.
- Compostable as per IS/ISO : 17088 and Certified by Central Pollution Control Board of India.
- Decomposable and does not require recycling. Our products break down much faster into a nutrient-rich manure in roughly 120 to 180 days which aids in generating healthy soil.
